

# cowCam™

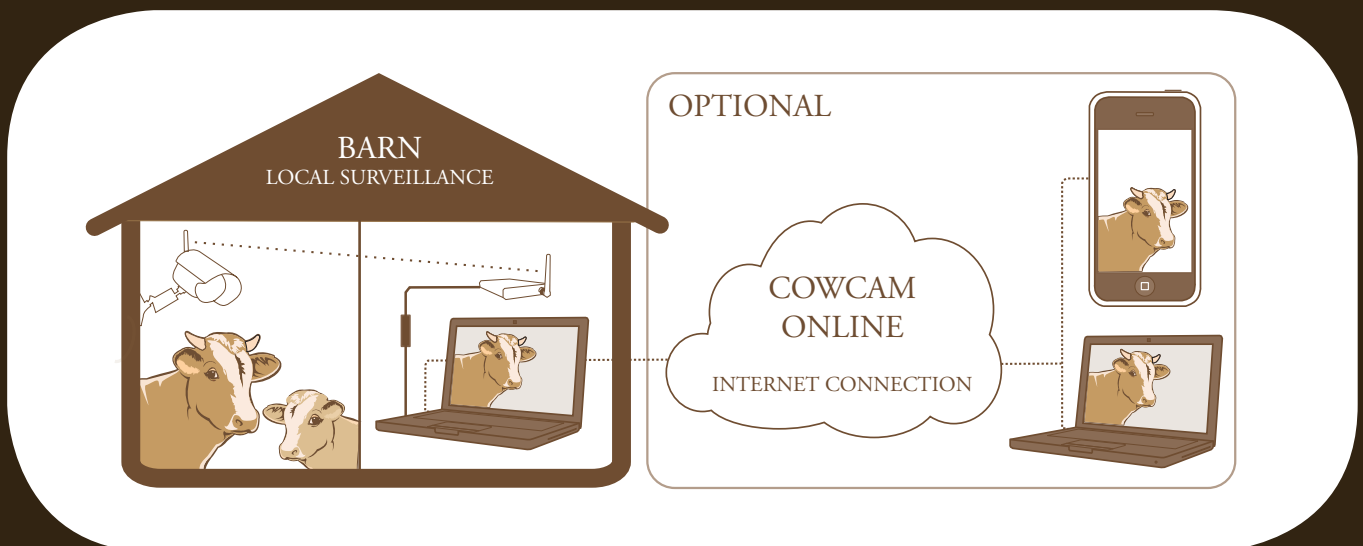

## LITE - if you have a computer in the barn

Lighter version of the European bestseller cowCam™. Quality assured solution providing local supervision of your cattle. All you need is a computer or TV in the barn. cowCam<sup>LITE</sup> is compatible with the flexible online-service, cowCam Online, for total mobility.

Night vision (10 m), wide angle lens and trouble free installation makes the cowCam-solution™ a favourite among cattle owners.

30 day trial of cowCam Online and easy instructions included.

### Surveillance system for easy supervision of your cattle

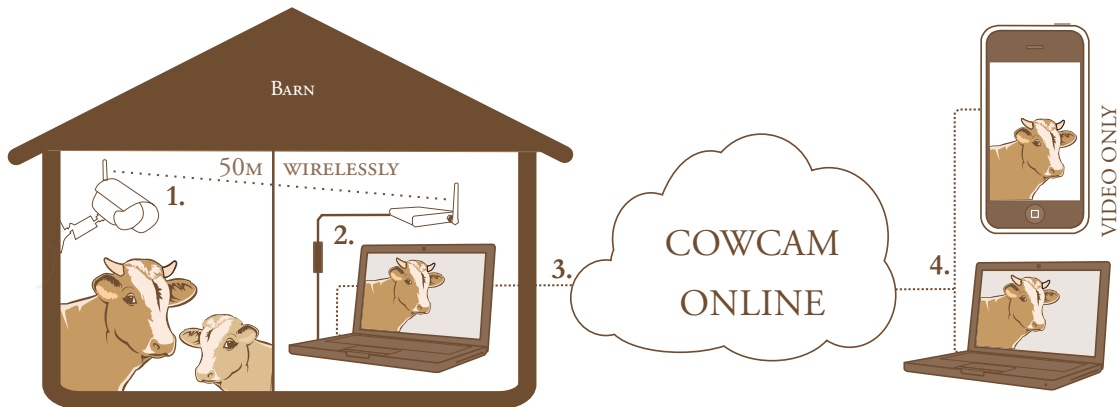

Use up to 3 cameras to monitor the barn, calving and the milking robot at the same time.

By using cowCam<sup>LITE</sup> you can supervise your calving pen from a TV or computer in your barn office.

## How it works:

### Step by step:

1. The camera monitors your cattle, the signal is transmitted wirelessly to the AV receiver in the barn.
2. The video of your cattle goes from the AV receiver to your TV or computer through the USB-adapter.
3. The video of your cattle is streamed from your computer through the Internet directly to cowCam Online. You don't have to worry about any technicalities such as firewalls or IP-configurations.
4. Safe and easy you see the video of you cattle at [www.cowcam-online.com](http://www.cowcam-online.com) on any other computer or in your mobile phone wherever you are.

## Included:

- 1 Wireless and water resistant video camera with night vision and microphone (Operating temp. -20° to +50°C // Wide Angle 90° // IP66 // 10 m night vision)
