

tractorCamTM

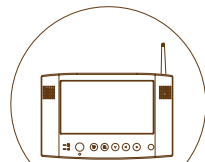

Wireless technology for professional farmers.

With tractorCam on your vehicle you get an overview where you otherwise cannot see. Processes that need to be monitored can be: harvesting, baling, potato picking and more. Specially developed for farming, tractorCam is robust, waterproof and practical. Up to four cameras can be used at the same time.

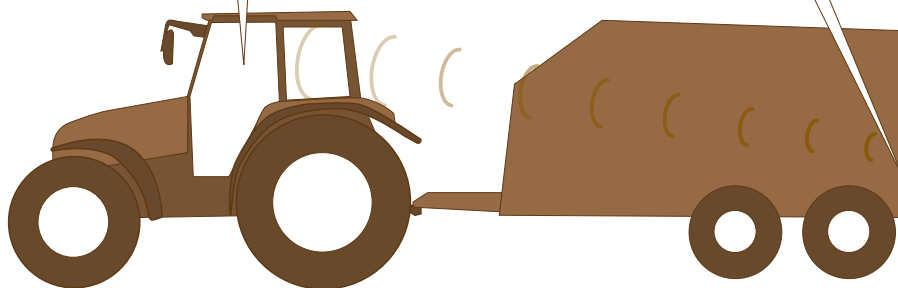

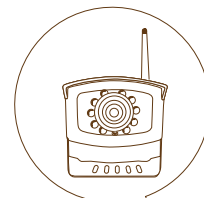

The 7" LCD monitor allows you to perfectly see your work process.

The unique digital transmission technology guarantees a stable and interference free picture.

tractorCam simplifies your everyday work.

**GUARANTEED
INTERFERENCE
FREE**

The camera monitors selected areas around the vehicle.

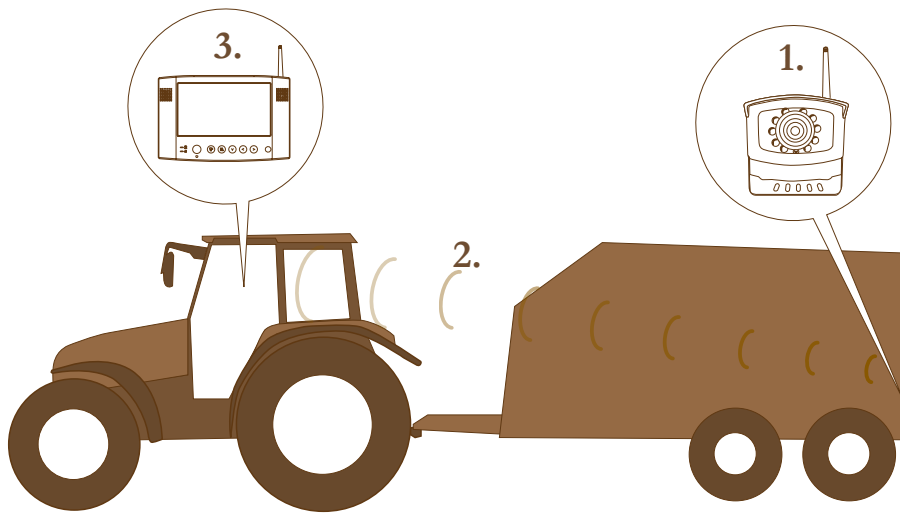

Interference free view on the 7" LCD monitor.

Robust camera for all weather conditions.

How it Works:

Step by Step:

1. The camera can be mounted anywhere on the vehicle.
2. The picture is transmitted wirelessly.
3. The 7" LCD monitor allows you to perfectly see your work process.
